"Escrow Rate Schedule"

PREFACE

AN ESCROW FEE is the amount charged for the acceptance of an escrow transaction and performance of the escrow duties by an Escrow Agent. The fee for a particular escrow transaction is based on the "Sales Price" of the property unless a set flat charge applies.

When the fee is based on the "Sales Price" of the property, the appropriate fee is calculated from schedules of charges where fee amounts are listed coinciding with the "Sales Price" amounts in increments of $1000.00.

There are various sub-categories of these fees based on the terms and conditions specific to each escrow transaction. The appropriate way to calculate a fee for each escrow transaction is the subject of the Schedule and General Rules Relative thereto and thorough understanding of the escrow transaction, the Schedule and the General Rules here is required
